StormHarbour Announces Senior Appointments in Geneva

Friday, 07 January 2011 00:00

StormHarbour has made three new senior appointments in its Geneva office, further strengthening its client-facing business in a core market for the firm.

These appointments are the latest of over 180 senior hires StormHarbour has made globally since it was founded in March 2009 and comes shortly after the firm announced the addition of 30 senior professionals to its US and UK businesses in December 2010 and established a fully operational local subsidiary in Tokyo, Japan – its sixth global office in a core financial centre.

The joining of Alberto Ferro-Villani, Hugues Dauphin and Vincent Briffaud mark the first of a number of new senior appointments the firm is planning on making in Geneva to build-out its client coverage and product and advisory offering in the country.
